

# Jamul-Dulzura Community Trail and Pathway Plan

## *Trails: The Community Connection*

The Community Trails Master Plan will be utilized to develop a system of interconnected regional and community trails and pathways. These trails and pathways are intended to address an established public need for recreation and transportation, but will also provide health and quality of life benefits associated with hiking, biking, and horseback riding throughout the County's biologically diverse environments.

Community trails serve a different function than regional trails, which are focused on the provision of long linear distances. Instead, community trails are "local public facilities" in close proximity to residents that provide transportation, recreation, access, infrastructure, linkages and safe routes throughout a community. The Community Trails Master Plan (CTMP) involves both trail development and management on public, semi-public and private lands. The CTMP has established two forms of non-motorized facilities called "Trails" and "Pathways" that provide passive recreational, and alternative modes of transportation.

**Trails** are typically away from vehicular roads that are primarily recreational in nature but can also serve as an alternative mode of transportation. They are soft-surface facilities for single or multiple uses by pedestrians, equestrians, and mountain bicyclists.

**Pathways** are a non-motorized transportation facility located within a parkway or road right of way. A riding and hiking trail located in the road right of way is considered a pathway. They are soft-surfaced facilities intended to serve both circulation and recreation purposes. Pathways help make critical connections and are an integral part of a functional trail system.

## COMMUNITY TRAIL STATEMENT

The Jamul-Dulzura Community Plan Area has a large percentage of public lands that have been purchased as wildlife corridors and preserves. The varied terrain provides for many opportunities to enjoy natural beauty of the region. The California Riding and Hiking Trail, established in 1948 by the State of California, runs north and south

throughout the area. Unfortunately, some of that easement has been lost and re-establishing that trails in its entirety should be a priority of the San Diego County Trails Master Plan. The Jamul Dulzura Community Planning Group encourages connector trails, especially those linking up to the California Riding and Hiking Trail. New development (major subdivisions) should be encouraged to provide for non-motorized, multi-use trails as designated in the Jamul Community trial Plan. Wilderness trails are preferred except in the more heavily populated areas.

### THE NEED FOR TRAILS

The community trail needs are based on an equation established by the Trails System Assessment (TSA) in 2001, which identified a minimum baseline level of service for each community by population. The Baseline Level of Service or Trail Need is 0.8 miles of trail per 1,000 people.

The “Trail Need” is the minimum length of trail miles (baseline level of service) for each Community and Subregional Plan Area. The TSA calculations for community trail needs are as follows:

- **Trail Need** = (Community Population /1,000 residents x 0.8 miles of trails)
- **2000 Trail Need** = (2000 population /1,000 residents x 0.8 miles of trails)
- **2020 Trail Need** = (2020 population /1,000 residents x 0.8 miles of trails)

Population statistics from the 2000 U.S. Census were used to determine the current trail needs in Jamul-Dulzura. Based on the census, the population of the Jamul-Dulzura Community Plan Area is 9,221 and there is a current need for 7 miles of community trails. In the year 2020, the population is projected to increase to 21,400 and there would be a future need for 17 miles of community trails.

For additional information about the baseline level of service and trail needs, please refer to the discussion under “**The Need for Trails**” and **Tables NT-1 and NT-2** in the CTMP.

### COUNTYWIDE TRAIL GOALS AND POLICIES

The “**Countywide Goals and Policies**” contained in the CTMP apply to all community and sub-regional plan areas. Community-specific goals and policies are intended to accommodate specific needs and they will be implemented when feasible. Where Community-specific goals and policies are not addressed, the “**Countywide Goals and Policies**” contained in CTMP shall apply.

### DESIGN AND CONSTRUCTION GUIDELINES

Countywide trail guidelines in the Community Trails Master Plan apply to all community and sub-regional plan areas. Community-specific guidelines are intended to accommodate specific community needs

and they will be implemented when feasible. Where Community specific guidelines are not addressed, the Countywide **“Design and Construction Guidelines”** contained in the CTMP shall apply.

### **JAMUL-DULZURA COMMUNITY TRAILS MAP SUMMARY**

As a result of the community trails outreach process for development of the CTMP, the Jamul-Dulzura Community Planning Group completed several tasks, and prioritized community trails and pathways as well as their special features. Each trail and pathway was labeled and recorded producing a community trails map and index.

Proposed trails shown on trails maps contained in the Community Trail Master Plan depict corridors of general alignments. The term “general alignment” is used to

describe the general location of a future trail within a designated corridor so that the specific alignment can be determined during the review and approval process when a discretionary application is submitted for a development permit for land that includes a trail corridor. The designated corridor is approximately one-quarter mile wide. A general alignment is useful because it allows the trail to be located to avoid extreme topographical conditions, sensitive habitat or other site-specific constraints.

### **JAMUL-DULZURA COMMUNITY TRAILS MAP INDEX**

The following community trails map index was completed by the Jamul-Dulzura Community Planning Group and will be used as a reference tool.

Trail # : 19	USGS Quad(s): 5	Name: Cinnamon Dr.	Trail Status: (x) Existing ( ) Proposed	Trail Priority Criteria: Along private road	Special Features: Connection to Cleveland Nat'l Forest
		Connections:	Trail Type: (x) Trail ( ) Pathway		
			Trail Priority: ( ) 1 ( ) 2 (x) 3		
			Estimated Trail Length in Miles: 3/4		
Trail # : 20	USGS Quad(s): 5	Name: Manzinita to Pole Line	Trail Status: (x) Existing ( ) Proposed	Trail Priority Criteria:	Special Features: Goes to Cleveland Nat'l Forest
		Connections:	Trail Type: (x) Trail ( ) Pathway		
		#11/10	Trail Priority: ( ) 1 ( ) 2 (x) 3		
			Estimated Trail Length in Miles: 1/2		
Trail # : 21	USGS Quad(s): 5	Name: Hunter's Camp	Trail Status: (x) Existing ( ) Proposed	Trail Priority Criteria: Many Oaks overlook toward Barrett Lake	Special Features: Very scenic
		Connections:	Trail Type: (x) Trail ( ) Pathway		
		#11/10	Trail Priority: ( ) 1 ( ) 2 (x) 3		
			Estimated Trail Length in Miles: 1		
Trail # : 1	USGS Quad(s): 35	Name: Proctor Valley Rd.	Trail Status: (x) Existing ( ) Proposed	Trail Priority Criteria: Pathway connects along Proctor Valley Rd. to the south of Hwy 94. Many trail users along way	Special Features: All used to be dirt. As development progress important dirt pathway be included.
		Connections:	Trail Type: ( ) Trail (x) Pathway		
		Connects Jamul to Bonita	Trail Priority: ( ) 1 ( ) 2 (x) 3		
			Estimated Trail Length in Miles: 5 1/2		
Trail # : 2	USGS Quad(s): 35	Name: N/A	Trail Status: (x) Existing & (x) Proposed	Trail Priority Criteria: Connects to Lao Montanas - U.S. Fish & Wildlife refuge that allows connection to Sweetwater Regional Trail	Special Features: Trail connectivity. Note correct west alignment
		Connections:	Trail Type: (x) Trail ( ) Pathway		
		Proctor Valley (#1) to Millar Ranch Rd. area	Trail Priority: ( ) 1 ( ) 2 (x) 3		
			Estimated Trail Length in Miles: 4 1/2		
Trail # : 3	USGS Quad(s): 35	Name: Lao Montanas Loop	Trail Status: (x) Existing ( ) Proposed	Trail Priority Criteria: Explores all south side of Los Montanas (U.S. Fish & Wildlife)	Special Features: Many different terrain features. Lovely riparian area close by northwest corner
		Connections:	Trail Type: (x) Trail ( ) Pathway		
		Connects to north trail to #2 that leads to wildlife refuge	Trail Priority: ( ) 1 ( ) 2 (x) 3		
			Estimated Trail Length in Miles: 2 1/2
